

# BLOCKCHAIN TECHNOLOGY

Index:

# Issue with current Banking System and overcome them with Blockchain

No Transaction fees

High Transaction Fess

Private Ledger

The Ledger is public

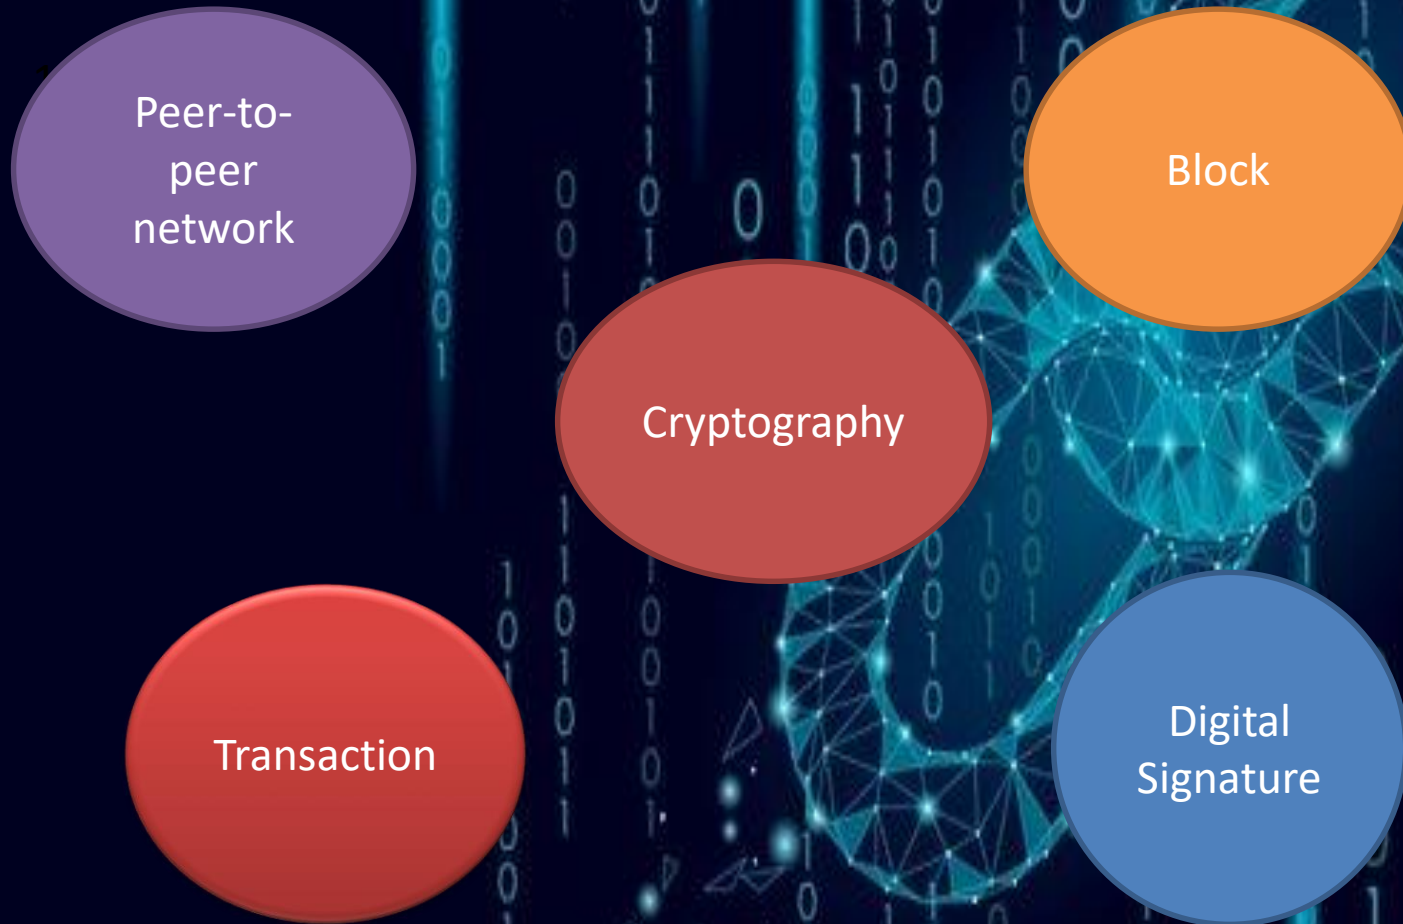

Prone to Hacks

Double Spending

Immutable to Hacks

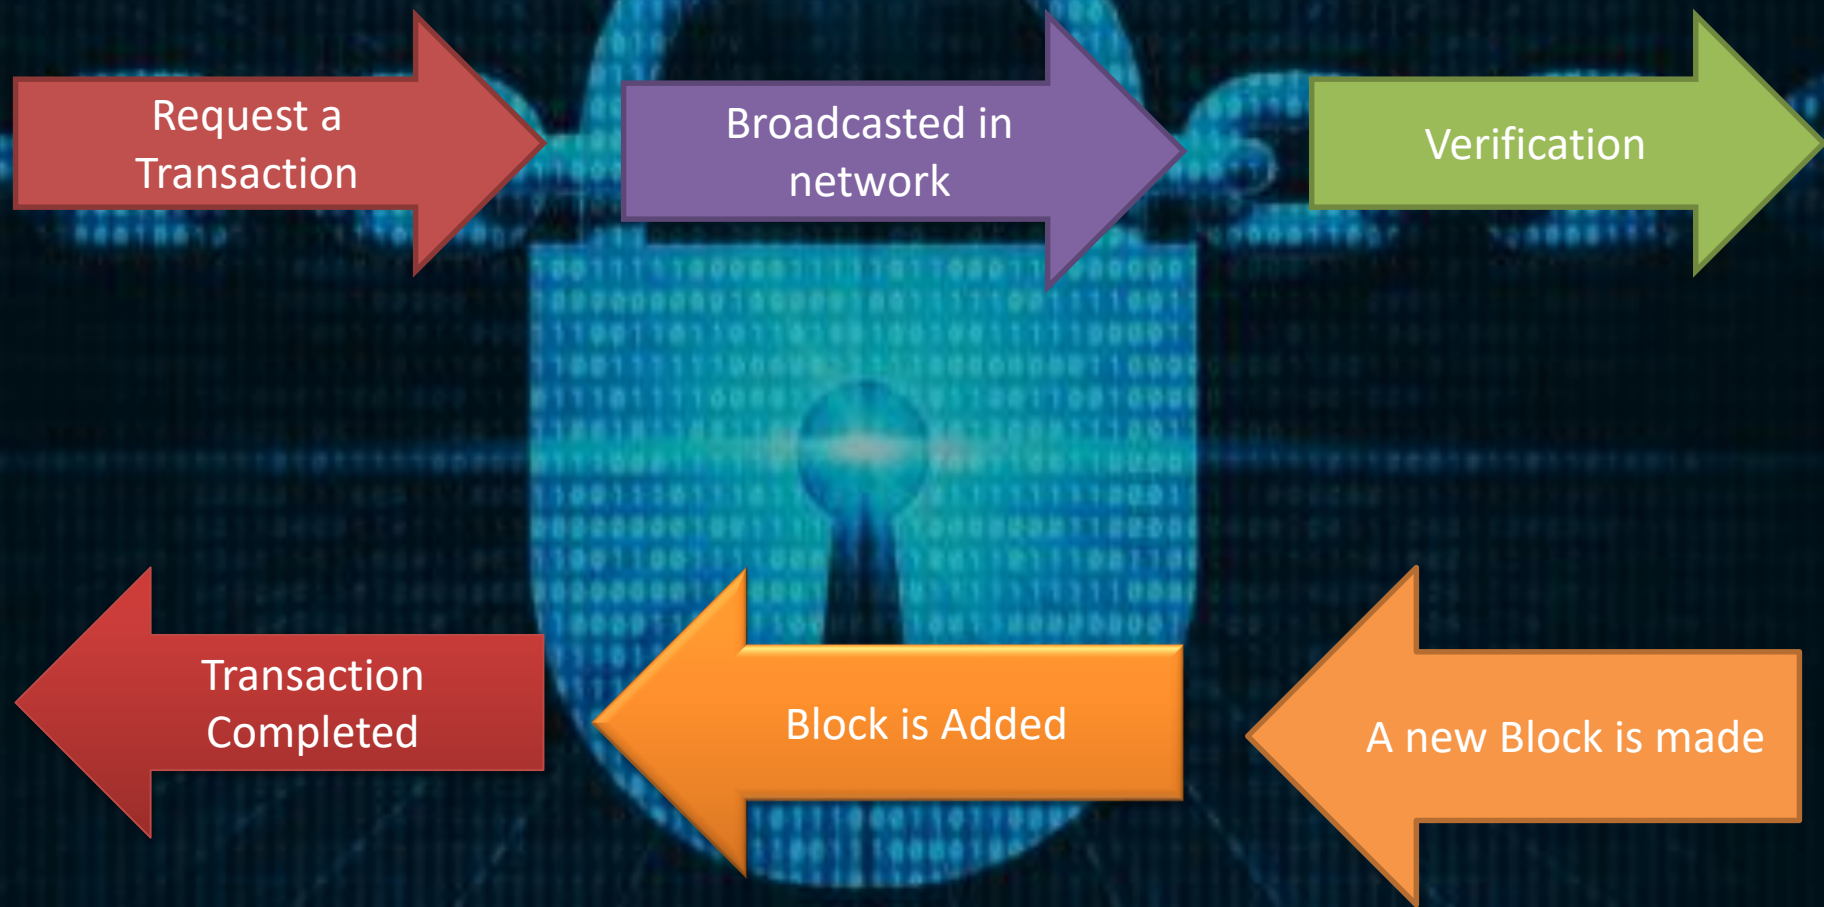

No Double Spending

# What is Blockchain Technology ?

# Blockchain Flow Diagram

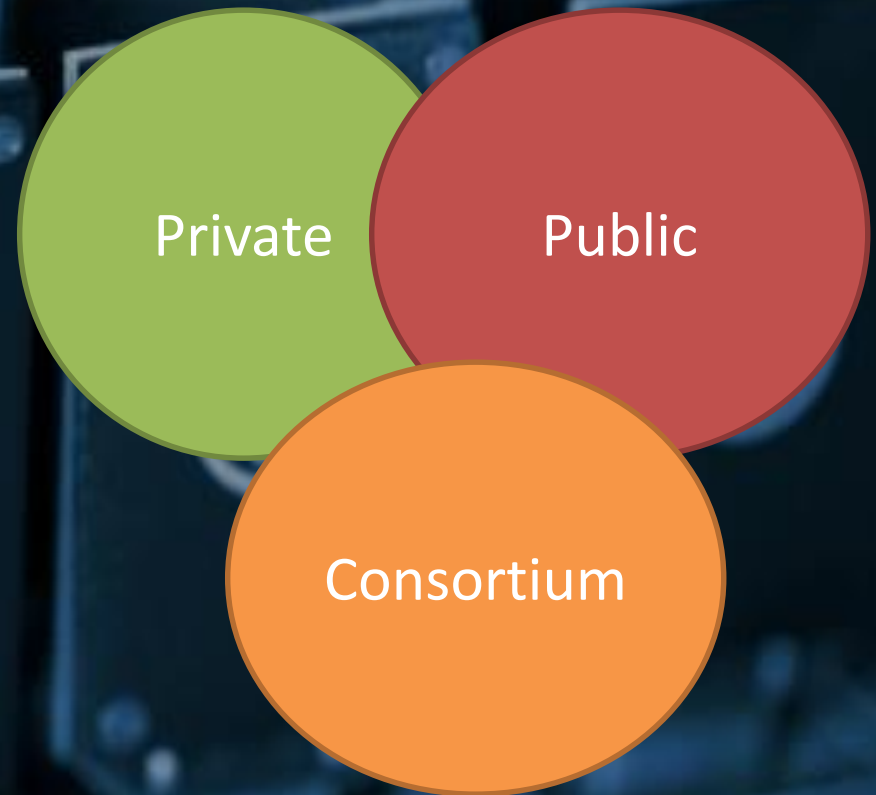

# Blockchain Types

1.Public

2.Private

3.Consortium

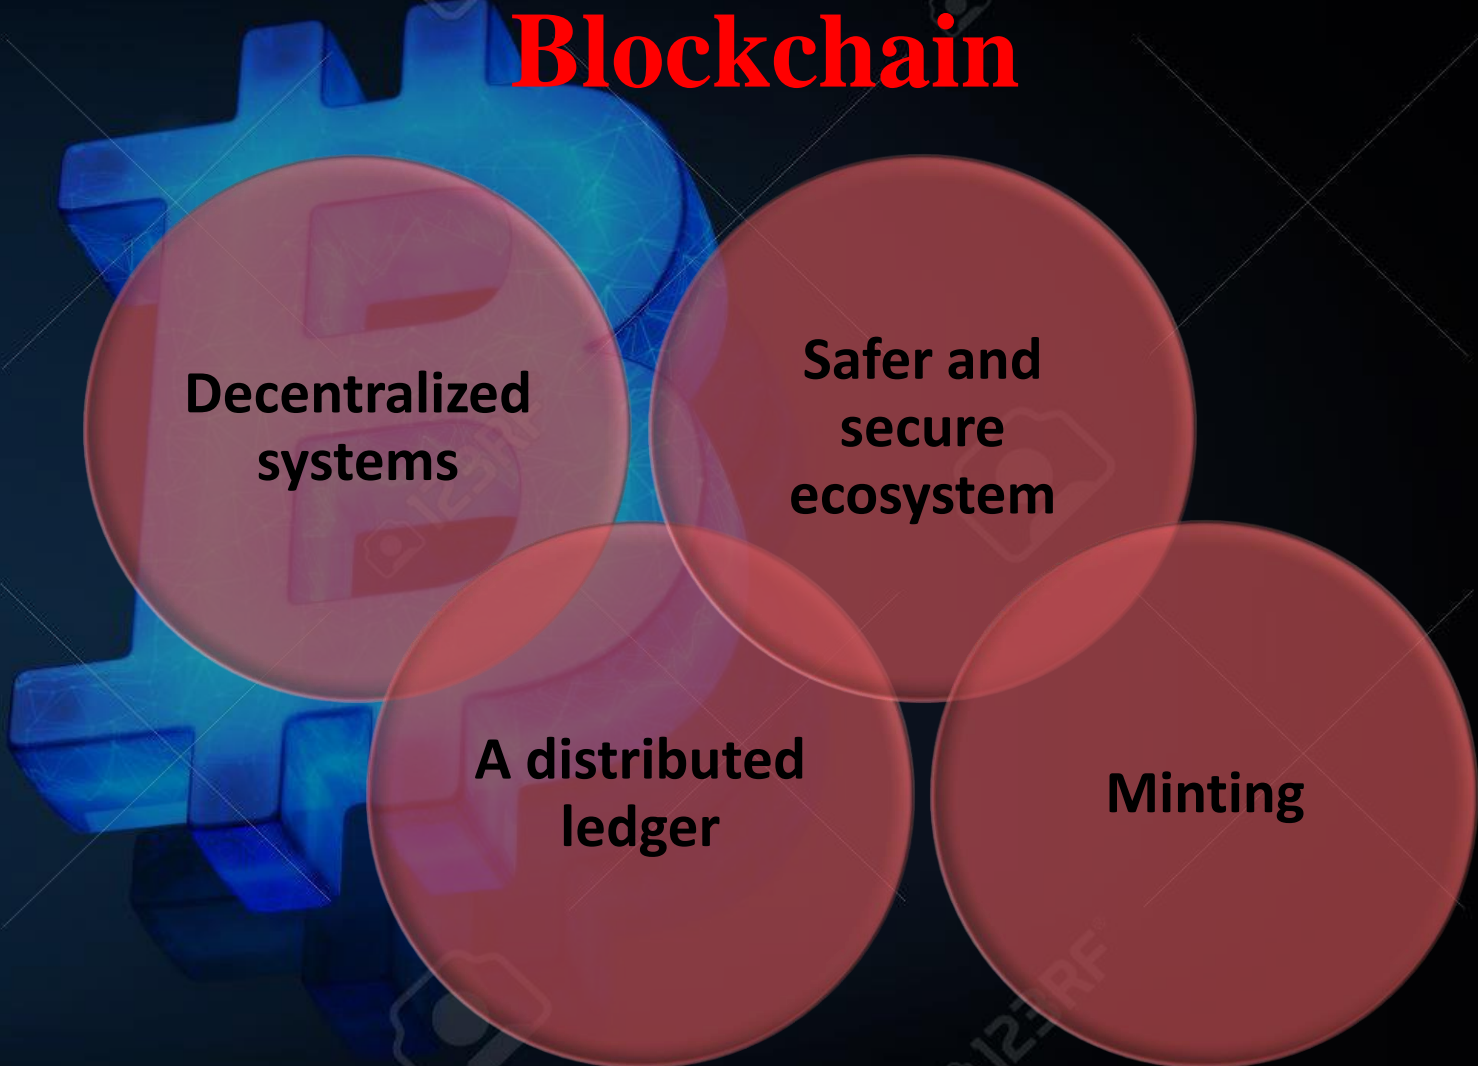

# Conclusion

- 1.Future of Block chain technology
- 2.Decentralized
- 3.Mainly used in Banking
- 4.More Secure

# Key Characteristics of Blockchain

**Decentralized  
systems**

**Safer and  
secure  
ecosystem**

**A distributed  
ledger**

**Minting**

# Real-World Uses for Blockchain Technology

Payment processing and money transfers

Monitor supply chains

Retail loyalty rewards programs

Digital IDs

Data sharing

Immutable data backup

Tracking prescription drugs

- **Application of Blockchain beyond Cryptocurrency**
